ORGANISATION

COURSE INTRODUCTION

This cadaver course is organized by the orthopedic departments of UZ Leuven and UZ Gent, in collaboration with TerBrugGen Shoulder Group and the IORT in Leuven. It is intended for orthopedic surgeons and trainees with special interest in shoulder arthroplasty.

With theoretical and practical sessions we aim to improve the participants surgical knowledge about and skills in anatomical and reverse shoulder arthroplasty.

Short lectures by the faculty members will highlight the most important surgical steps during these procedures, after which all participants will have plenty of time to put it all in practice in the cadaver lab.

FACULTY MEMBERS

Chairman

Prof. Philippe Debeer, UZ Leuven

Dr. Bart Berghs, AZ St Jan Brugge, TerBrugGen

Prof. Lieven De Wilde, UZ Gent, TerBrugGen

Dr. Anne Karelse, UZ Gent, TerBrugGen

Dr. Tom Van Isacker, AZ St Lucas Gent, TerBrugGen

Dr. Hans Van der Bracht, AZ St Lucas Gent, TerBrugGen

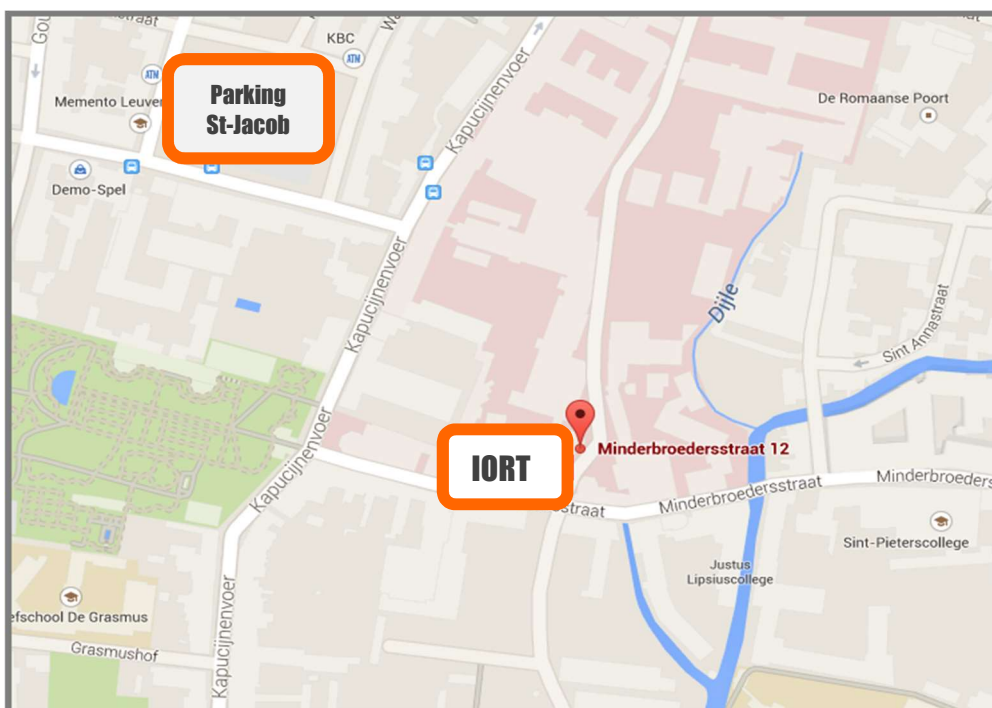

Prof. Alexander Van Tongel, UZ Gent, TerBrugGen

Dr. Filip Verhaegen, UZ Leuven

COURSE LOCATION

IORT Leuven

Vesalius Institute – Minderbroedersstraat 12, bloc Q, 3000 Leuven

PROGRAM

09h30 – 10h00

Welcome

10h00 – 10h10

Introduction

(Prof. P. Debeer)

10h10 – 10h50

Presentations

- How to deal with glenoid bone defects in revision shoulder arthroplasty (Prof. L. De Wilde)
- Advantage and disadvantage of Platform shoulder arthroplasty systems (Dr. B. Berghs)
- Pectoralis major transfer for deltoid reconstruction - Technique (video) (Dr. F. Verhaegen)
- Reversed shoulder prosthesis and latissimus dorsi transfer - Indications and technique (Dr. A. Karelse)

10h50 – 11h00

Coffee and discussion

11h00 – 13h00

Cadaver workshop

- Stemless / short stem anatomical TSP
- Revision to cemented stemmed prosthesis

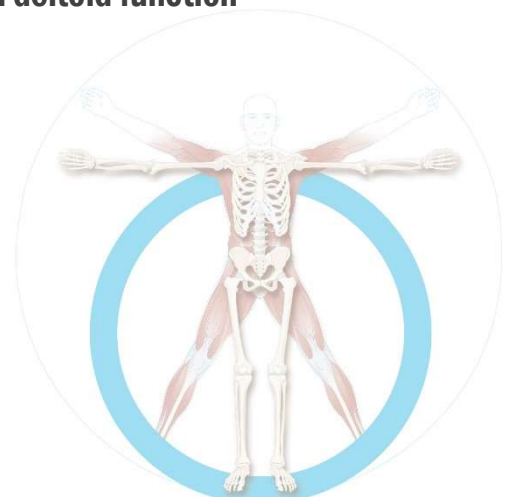

13h00 – 14h00

Lunch

14h00 – 16h00

Cadaver workshop

- Revision anatomical TSP to Reversed shoulder prosthesis
- Latissimus dorsi transfer to restore ER / Pectoralis major transfer to restore impaired deltoid function
